

***The Open Web Application Security Project (OWASP) Los Angeles Chapter is teaming up with the Orange County, San Diego and Santa Barbara chapters to bring you the fourth annual AppSec California.***

***AppSec California combines a dynamic mix of training and education delivered by some of the industry's top experts in secure application development and web application security.***

***Information security professionals, developers, and QA and testing professionals from around the world will gather at the Annenberg Beach House where they will participate in full-day trainings, enjoy invigorating and inspiring talks, engage in thought-provoking conversations, and make new friends.***

***The event takes place January 23-25 on the beach in Santa Monica, California at the Annenberg Beach House.***

***A full day of training on various subjects by expert trainers kicks off the conference on the 23rd. World renowned speakers follow on days two and three.***

***This year brings three very special Keynote Speakers: RSA CTO Zulfikar "Zully" Ramzan, Cigital CTO Gary McGraw and Acalvio CSA Chris Roberts.***

***There will be four concurrent tracks addressing a variety of topics to enhance knowledge. Our stellar lineup features: Jim Manico, Dan Cornell, Scott Jenson, Neil Matatall, Arvind Mani, Jillian Karner, Bret Johnson, Caroline Wong, Chenxi Wang, Roger Seagle, Marian Merritt, Tin Zaw, and, Richard Greenberg.***

***A great opening party spills onto the beautiful deck of the landmark Marion Davies House on day two, as conference goers network, drink, and eat as they listen to the waves and gaze at the stars.***

*New friendships will be born, new techniques for securing your environments and applications will be shared, as you become inspired by your peers.*

*There will be four concurrent tracks addressing a variety of topics to enhance knowledge, with a stellar speaker lineup.*

*Register now to take advantage of the early-registration pricing.*

*<https://2017.appseccalifornia.org/>*

*A full day of training kicks off the conference on January 23<sup>rd</sup>:*

- Secure Coding Bootcamp for the Web - Jim Manico*
- Real World Red Team Attacks - Peter Kim*
- OWASP Top 10 - Exploitation and Effective Safeguards - David Caissy*
- The Best TLS Training in the World - Scott Helme*

*CTF Hacking Competition on January 24 & 25 (third year in a row).*

*Who Should Attend AppSec California:*

- Application Developers*
- Application Testers and Quality Assurance*
- Application Project Management and Staff*
- Chief Information Officers, Chief Information Security Officers, Chief Technology Officers, Deputies, Associates and Staff*
- Chief Financial Officers, Auditors, and Staff Responsible for IT Security Oversight and Compliance*
- Security Managers and Staff*
- Executives, Managers, and Staff Responsible for IT Security Governance*
- IT Professionals Interesting in Improving IT Security*

*So, ask yourself: “Do I want to go to the office, or would I rather go to the beach for three days? “ If you live in the north, would you rather try to dig your car out some fine January mornings, or go to the beach? Go ahead, make your day!*
